1 Read about dreams. Are the sentences true or false? (5 marks)

Do you remember your first house? Or your first day at school? Do you remember the games you used to play when you were very young? A lot of people remember some things but not everything.

We dream about a lot of different things. Scientists say that we often dream about places, people and things that used to be important to us. In the daytime we can't remember them but at night we can. Kerry says, 'I often dream about an old house with a lot of dark rooms. I don't remember this house at all. But my mum says it's my grandmother's house. I used to visit her a lot when I was very young. But she died when I was three!'
