**1 Read about dreams and answer the questions. Write complete sentences.** (10 marks, true/false = 1 mark; correction = 1 mark)

Do you remember your first house? How about your first day at school and the people in your first class? Do you remember the games you used to play when you were very young? Most people remember some things about their childhood but certainly not everything! It was a long time ago! But our brains

remember – when we're asleep.

We dream about a lot of different things. Sometimes we know why we dream about these things and sometimes we have no idea. Experts say that we often dream about places, people and things that used to be important to us. In the daytime we can't remember them but at night we can. Kerry, a teenager from Scotland, says, 'I often dream about an old house with a lot of dark rooms and a big garden with a river at the bottom. The trees in the garden are really enormous and the flowers are very tall. In the dream I usually feel happy, not scared, and there are people in the dream too. I can't see them but I know they love me. It's really peaceful in the garden.

There aren't any sounds of cars and the sun is always shining! I don't remember this house at all. But my mum says it's my grandmother's house. I used to visit her a lot when I was very young, especially in the summertime.

She died when I was three!' Scary!

So, do you dream about the past? Write in and tell us.
