

ARCHAEOLOGISTS

AN ARCHAEOLOGIST is a person who studies the human history and prehistory.

ARCHAEOLOGISTS WORK outside, usually in excavations They also work in labs, universities, old cities, museums....

THEY USE maps, a variety of shovels, total stations , trowels, brushes, ...

This is a total station

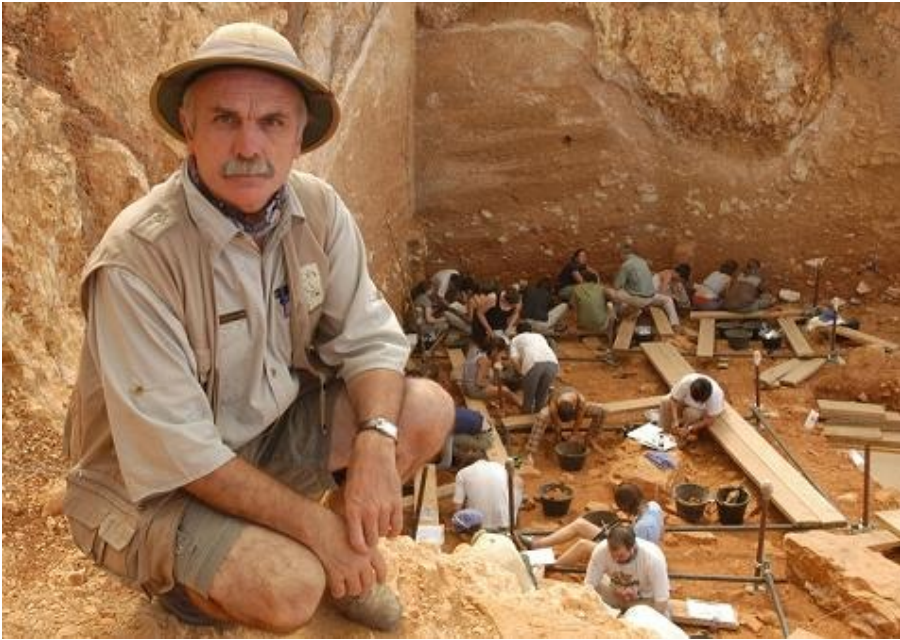

These are shovels

This is a trowel

IMPORTANT/FAMOUS Catalan archaeologists: EUDALD CARBONELL

A group of arqueologists are working in Atapuerca (Burgos), a very important excavation.
