

PERÍMETROS Y ÁREAS DE FIGURAS PLANAS

FIGURA	PERÍMETRO	ÁREA
	$P = a + b + c$	$A = \frac{b \cdot h}{2}$
	$P = 4L$	$A = L^2$
	$P = 2a + 2b$	$A = a \cdot b$
	$P = 2a + 2b$	$A = a \cdot h$
	$P = 4L$	$A = \frac{D \cdot d}{2}$
	$P = a + b + c + B$	$A = \frac{B+b}{2} \cdot h$
	$L = 2 \cdot \pi \cdot r$ Longitud de la circunferencia, es su perímetro	$A = \pi \cdot r^2$
