INTRODUCCIÓ

Bram Stoker (1847-1912) era irlandès. Va viure a Londres, on va treballar com a secretari i representant de l'actor Sir Henry Irving. Stoker es va interessar per les llegendes eslaves sobre vampirs i va escriure *Dràcula* l'any 1897.

El Comte Dràcula és el príncep dels vampirs, esperits malignes que viuen eternament gràcies a la sang humana de la qual s'alimenten.

Un jove advocat anglès, Jonathan Harker, i la seva xicota, la Mina, són les víctimes d'en Dràcula, que necessita expandir el seu exèrcit de vampirs a la terra reclutant nous adeptes a les seves files. És un combat desigual, però en Jonathan i la Mina compten amb l'ajuda del professor Van Helsing i dels seus amulets: l'all, la sagrada forma i la creu.
