OBJECTIUS	De convivència, sensibilització i interculturalitat	<p>To get to know different cultural aspects of Scottish school life (daily routines, free time, food...)</p> <p>To develop interests in other people's way of life.</p> <p>To respect cultural diversity.</p>
	De comunicació i aprenentatge lingüístic	<p>To find out about different lifestyles in schools (compare and contrast to that of school life in Catalonia)</p> <p>To ask questions and give opinions about school life in Scotland.</p> <p>To learn vocabulary and structures related to the topic.</p> <p>To learn a conversation between two school students.</p> <p>To pronounce correctly and use appropriate intonation.</p>

METODOLOGIA	Seqüència didàctica (pas a pas)	<p>SESSION 1</p> <p>Children watch "Scotland school" Power Point. It's related to a normal day for a child in Scotland.</p> <p>Pupils make comments and questions about it.</p> <p>Give students the "Scotland v Catalonia" sheet. They fill in the spaces with important information they have learnt in the Power Point and with their own information. They will compare school life in Scotland and in Catalonia.</p> <p>SESSION 2</p> <p>Give pupils a conversation between a Scottish child and a Catalan one. Choose two volunteers and read it aloud. Explain any words or expressions they don't understand.</p> <p>Make pairs and practice it. The language assistant will help with pronunciation and intonation. Students learn it.</p> <p>Record the conversation so that they can listen to themselves and recognise possible mistakes they may make.</p>
	Observacions	<p>With this activity students have got a wider vision of school life around Europe because they already know the typical school day of a child in Finland. They all have a pen pal from that country and they have already written about it. It's the second year that we have written letters to students from a couple of schools there.</p>
