	De comunicació i aprenentatge lingüístic	<ul style="list-style-type: none"> ▪ To practice the “how many” question structure ▪ To practice using comparatives and superlatives: highest, longest, biggest ▪ To practice vocabulary related to the presentation, particularly geographic terminology

METODOLOGIA	Seqüència didàctica (pas a pas)	<p>This power point presentation is designed to serve as a starting point for the 6th grade's USA project. The project lasts for three sessions. Each session lasts for 2 hours.</p> <p>1st session: The tutora introduces general geographic concepts: number of continents in the world, difference among city, town, and village, etc. The Auxiliar guides the class through the presentation. The students copy the questions from the power point and are instructed to research the answers for homework. The tutora introduces grammar structure: comparatives and superlatives.</p> <p>2nd session: Quick review of information from the first session. Students provide their answers to the initial questions practicing superlative form. Tutora provides a worksheet to practice writing and review information. (See attached sheet). Auxiliar supports Tutora in class.</p> <p>3rd session: Tutora introduces new geographic terms: sea, island, mountain, village, ocean, etc. Students make a dictionary of geographic terms. Auxiliar helps students, particularly with pronunciation of terms. Students write about specific US geographic features.</p>
	Observacions	The topic of the USA is immediately exciting to the students. It is interesting to compare the USA to Spain to learn more about how the students view their own surroundings.
