

OTTAWA, MY FAVOURITE CAPITAL CITY

OTTAWA IS THE CAPITAL FROM CANADA , its name refers to Ottawa River
in Ottawa you can speak two official languages : French and English.

This city is very easy for the visitors for its fantastic public transport, it includes the bus service
and all other transports.

A lot of people visit the Parliament Hill in down – town, this building is an example of the Gothic
style. You can visit the centre block tour , it is the other point to visit and it includes inside views
of the house of Commons , the Senate and the renovate library of Parliament.

The Canadian War Museum has been moved to a new building , west of down - town in 2005.

If you love outdoors in particular and if you are a cyclist visit the Gatineau Park , just when you
cross the Ottawa River you have many possibilities to rent a bicycle in the summer.

In the north - west corner of the chateau laurier ,Ottawa has a 170km of public trails where you can
run ,ride a bike , walk of roller blade, etc...

In winter you can try skating outdoor and you can buy a refreshment on the ice.

The other place to enjoy is "BEAVER TAIL", there you can taste a local speciality "FUNNEL
CAKE" and lemon with sugar.

In down hill you can practice trail-mountain.

MY RESTAURANT IN OTTAWA

My own restaurant is located on " SANDY HILL"opposite the university of Ottawa , across the
"RIDEAU CANAL"and near down-town. On the right of the market and at the end of the city
limits.

It is well communicated, there is good public transport and it's very easy to park by car . It's a
beautiful place where you can watch views of the city at night.

There are a lot of students from the university , but at night , it is wonderful for a romantic dinner.

REASONS WHY IT'S THE BEST PLACE TO RUN A BUSINESS

I chose Ottawa to open my restaurant for its multiracial population . Also there are a lot of immigrants around the world ; this city grows very fast and its living level is very important .

There are a lot of interesting monuments and museums , also different styles of construction, that are interesting for the foreign visitors .

If you like sports , in winter Ottawa has a lot of places for you , to practice (rollerball , skating , etc) Ottawa offers many areas for walking through the nature (natural parks , lakes etc) .

This capital is exciting for the other cultures and open minds , in the summer you have the possibility to rent a ship for fishing or enjoy the sea , the golf club is very nice for the players and visitors.
